North Carolina State Law requires every dog and cat four months of age and older to be vaccinated against rabies. A licensed veterinarian must administer this vaccine. In North Carolina, the animal's first rabies shot is good for one year and subsequent vaccinations are valid for three years. If you have recently moved to North Carolina and the rabies vaccination was given within the last year, it is a valid shot. If the vaccination was given more than one year ago, this vaccination is not considered current (even if it was a three year shot) and the animal must be revaccinated. The fine for failing to display a rabies tag is \$50.00 and a \$50.00 fine may be levied if your animal does not have a valid rabies vaccination. Animal Registration is Required Annually in January. There is a \$5.00 dollar Registration Fee Per Animal. You can mail this form with payment to the address above or bring it to City Hall, 1 Governmental Ave, Havelock, NC.
